

555 West Queen St.  
Southington, CT 06489

This statement confirms that Gemco Manufacturing Company, Inc. is aware of the requirements of EU Directive 2011/65/EU (RoHS2) and intends to comply with the requirements in regards to material content for products identified as RoHS compliant. In instances where customer prints and specifications conflict with RoHS those products will not be RoHS compliant.

The plastic resins, base metals, metal plating or coatings used to manufacture RoHS compliant Gemco Manufacturing products do not have any intentionally added:

- Hexavalent Chromium (0.1%)
- Poly-brominated biphenyls (PBBs) (0.1%)
- Poly-brominated diphenyl ethers (PDBEs), including Deca-BDE (0.1%)
- Cadmium (0.1%)
- Mercury (0.1%)
- Lead (0.1%) Per EU directive 2011/65/EU (RoHS 2), Exemption 6c, copper alloys may contain up to 4% Lead.

Specific product RoHS2 Certificates of Compliance are available upon request. We reserve the right to make material substitutions in our product that will not impact this certification.

None of our materials are typically analyzed for content, relying on the material supplier for Certifications and available MSDS.
